

REMARKS

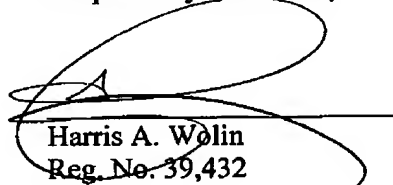

The present application was allowed on January 3, 2005. Claims 1-13 are allowed. The issue fee due April 3, 2005, is not being paid in view of the RCE being filed concurrently herewith.

The Examiner's reasons for allowance that accompanied the Notice of Allowance dated January 3, 2005, referenced an intermediate test button or a test button located between a package and an electrical device. However, while the preferred embodiment may describe such a situation, the claims do not specifically state that the test button is intermediate or between the package and the electrical device. As such, Applicants do not believe that the scope of the claimed invention should be so restricted.

Accordingly, Applicants have reviewed and considered the prior art of record and believe that the claims as amended, as well as the newly proposed claims, patentably define over the prior art of record. It is believed that claims 1-20, consisting of independent claims 1 and 14 and the claims dependent therefrom, are in condition for allowance. However, if for any reason the Examiner should consider this application not to be in condition for allowance, the Examiner is respectfully requested to telephone the undersigned attorney at the number listed below prior to issuing a further Action.

Any fee due with this paper may be charged on Deposit Account 03-2455.

Respectfully submitted,

Harris A. Wolin
